Account Management Tools

Integrate your supply chain with Master Account Tools

Welcome ABC COMPANY
(For Testing Purposes Only)

Your Account Management screen provides tools to **integrate your supply chain**, allowing you to control inbound as well as outbound freight costs. We encourage you to take full advantage of freightquote.com's aggregated discount rates and timesaving features.

You have the ability to:

- * Enable multiple users from your own location (authorized users)
- * Enable external suppliers and distributors to ship to limited destinations at your discretion (Limited Access: suppliers & vendors)
- * Enable corporate plants or subsidiaries to ship with complete access (Complete Access: subsidiaries & branches)
- * Monitor the activities of all accounts from the reports link

To get started:

Select a link from the box at the left and click to add users at your discretion. The application even allows you to edit and send an email notification to the users as you add them.

Questions? We'll be glad to assist you.
